***The Trading Package fee for new clients who hold only a bond with the ticker RS94 issued by the Republic of Slovenia or any subsequent government bond issued by the Republic of Slovenia and intended exclusively for natural persons in their portfolio, will be EUR 15.00 in the case of use of electronic communication and electronic operating activities. The cost of the Trading Package for new clients who hold only a bond with the ticker RS94 issued by the Republic of Slovenia or any subsequent government bond issued by the Republic of Slovenia and intended exclusively for natural persons will remain unchanged (EUR 28.00) in the case of use of traditional communication and operating activities.**

Individual available service and all optional services by ILIRIKA d.d. are calculated in accordance with the Service Price List of ILIRIKA d.d.

The Trading Package is intended solely for natural persons. The Business Package is intended solely for companies, civil law individuals and other legal entities. A freelancer can choose any package.

In the event that a business relationship is established in the middle of the current calendar year, the compensation for the selected service package shall be charged to the client pro rata until the end of the current calendar year according to the number of months remaining or shall be charged pro rata according to the number of months in the current calendar year during which the trading account was opened. In the event of termination of the business relationship due to the cancellation by the client before the end of the period for which the compensation was charged, the compensation charged shall be refunded to the client pro rata according to the number of months remaining in that period. In the same way, the compensation is refundable in case of switching between packages during the calendar year, which results in the lower level of service. The compensation for the conclusion of the contractual relationship for the selected package is calculated for the entire calendar year, regardless of the month of concluding the business relationship. The client, who agrees to receive all notifications in an electronic form via e-mail and refuses the standard mail service, is entitled to the electronic communication discount. The client, who agrees to send all notifications in an electronic form via e-mail and refuses the standard mail service and has concluded the accession form for ILIRIKA Online application, is entitled to the electronic communication discount.

2. COMPENSATION FOR CLOSING AND OPERATING ACCOUNT AT THE CENTRAL CLEARING CORPORATION (KDD)

	TRADING PACKAGE	BUSINESS PACKAGE
Monthly compensation for maintaining status of equity securities for an individual KDD account	0.0010% of equity securities average monthly value	0.0010% of equity securities average monthly value
Monthly compensation for maintaining status of debt securities for an individual KDD account*	0.00080% of debt securities average monthly value	0.0080% of debt securities average monthly value
Minimal annual compensation for maintaining statuses of securities for legal entities		20.00 EUR

****ILIRIKA's monthly compensation for maintaining status of the bond with ticker RS94 of the issuer Republic of Slovenia or any subsequent government bond issued by the Republic of Slovenia, which will be exclusively intended for natural persons, will not be charged.***

The fees in point 3 do not include the direct costs charged by KDD d.d. to ILIRIKA d.d. in connection to the maintenance of the statut of the financial instruments of the clients of ILIRIKA d.d. The direct costs of KDD d.d. will be charged in addition to the fees of ILIRIKA d.d. in accordance with the KDD d.d.'s price list in force from time to time, as published on the company's website (<https://www.kdd.si/>) (Schedule 1). The basis for the calculation of the compensation for maintaining the financial instruments in the KDD is the average value of these financial instruments of a client in an individual month, calculated as it is charged by the KDD d.d. The compensation is charged quarterly.

If the amount from Point 3 of this price list, accumulated with the amount of compensation from Point 4 and compensation from Point 11.4 of this price list does not exceed 10.00 EUR, the compensation is not charged in the current quarter but rather in the quarter, once the sum of uncharged compensation for an individual account exceeds 10.00 EUR, and at the latest after the conclusion of the final quarter of the current year or in case of a business relationship termination, regardless of the amount of the uncharged compensation.

Any legal entity in possession of financial instruments, valued over zero (0) on the 1st of January, is charged a minimal yearly compensation for maintaining status of domestic financial instruments at KDD as well as foreign financial instruments at the custodian partner, providing custodian services. The fee is charged at the beginning of the year for the current calendar year. In the event that a legal entity has a status of securities on the 1st of January equal to zero or if the account for a legal entity is opened in the current calendar year, the first book entry of securities to an individual account is charged a proportionate part of the minimal yearly compensation for maintaining the status of securities;. In the event of a business relationship termination due prior to the expiry of set period, in which the compensation is charged, the compensation is refundable pro rata according to the number of months remaining in that period. An assessment between the actual compensation for status maintenance and the paid minimal compensation is conducted quarterly. If the amount from Point 2 of this price list, accumulated with the amount of compensation from Point 3 and compensation from Point 11.4 of this price list does not exceed 10.00 EUR, the compensation is not charged in the current quarter. The amount of uncharged compensations, in such cases, is therefore charged in the quarter, when the sum of uncharged compensation for an individual account exceeds 10.00 EUR and at the latest after the conclusion of the final quarter of the current year or in the event of a business relationship termination, regardless of the uncharged compensation amount.

4. COMPENSATION FOR MAINTAINING STATUS OF FOREIGN FINANCIAL INSTRUMENTS

TRADING PACKAGE	BUSINESS PACKAGE
Compensation for maintaining status of foreign financial instruments	0.0067% of average monthly value of portfolio
Compensations presented in Point 4 does not include direct costs charged by the trust banks to ILIRIKA d.d. for maintaining status of financial instruments of ILIRIKA d.d.'s clients. The trust banks' direct costs are charged additionally to the ILIRIKA d.d. compensation in accordance with their valid price lists (Schedule 2).	

The basis for the calculation of the compensation for maintaining foreign financial instruments is the average value of securities held by individual client in an individual month, calculated as it is charged by the trust bank.

The compensation is charged quarterly. If the amount of compensation presented in Point 4 does not exceed 10.00 EUR, the compensation is not charged in the current quarter. The amount of uncharged compensations, in such cases, is charged in the quarter, when the sum of uncharged compensation for an individual account exceeds 10.00 EUR and at the latest after the conclusion of the final quarter of the current year or in the event of a business relationship termination, regardless of the uncharged compensation amount.

Fixed monthly fee	EUR 5,000 for the first 3 months of cooperation, after which the fixed monthly fee is increased to EUR 10,000
Success fee in the event of successful closing of transaction	1.00% of transaction value

The transaction value or enterprise value is defined as the total value of the subject of the sale, comprising the purchase price plus the balance sheet value of the debt less the liquid financial assets of the company. The success fee does not include VAT, which is levied in accordance with applicable law.

12.32. THE COST OF MAINTAINING THE CASH BALANCE ON THE TRADING ACCOUNT

The fee for the maintenance of cash balances on the trading account shall be charged at the rate of 0.00% of the average monthly cash balance on the trading account. The fee shall be calculated quarterly.

NOTES:

The company's Responsible Person may, in agreement with the Client, approve a different level of fees or allowances than those set out in this Price List. The Responsible Person may also fix prices for services not specified in this Price List. ILIRIKA d.d. Ljubljana reserves the right to change the Price List without prior notice. The current price list shall be available for inspection by the customer in a visible and accessible place in each of the following locations premises where ILIRIKA d.d. Ljubljana conducts business with its customers and on its website www.ilirika.si. The commission values of foreign brokers are for information purposes only and represent the most recent values known to ILIRIKA d.d. Ljubljana, therefore changes in values, either upwards or downwards, are possible. Commissions and costs for trading on foreign markets are determined in accordance with the individual exchange and financial institutions price lists carrying out activities in a particular transaction. ILIRIKA d.d. Ljubljana is entitled to reimbursement of any taxes, fees or other charges payable by it on behalf of the Client. For the conversion of values not expressed in EUR, the ECB previous business day reference rate shall be used (the Bank of Slovenia's exchange rate shall be used for the currencies for which the ECB reference rates are not published). When it is considered that the transfer of financial instruments is expedient and in the interest of its clients, ILIRIKA d.d. Ljubljana could transfer the clients' financial instruments to another custodian. In the event that the annual rate of increase in consumer prices exceeds 5%, as determined by the Statistični urad Republike Slovenije (SURS), the absolute amounts set out in the price list could be increased by the increase in consumer prices. In case it is decided to increase the prices, Ilirika d.d. shall amend the price list, which shall also apply to contracts concluded before the change takes effect. This Price List shall become valid from 15.07.2024 including and onward.
